Bryant Brock

Full-stack software engineer; experienced developing applications and having to gather/organize data from the database, exposing it as a REST API, fetching it from the client (React), and then displaying it. Married, living in Moscow ID.

1377 N Mountain View Rd
Moscow, ID 83843
(770) 820-8961

EXPERIENCE

Emsi Burning Glass, Moscow ID — *Software Engineer I*

APRIL 2021 - PRESENT

Programmed new and existing features of Analyst, including a new release SmartReq. Developed the PHP-based api, server-side rendering, and data fetching from the many different emsi APIs (e.g Job Postings Analytics API, Profiles API, and Core LMI API).

ConsignCloud, Moscow ID — *Software Engineer & Customer Service Rep*

SEPT 2019 - PRESENT

After serving as a Software Engineer and customer support rep for over a year and a half, I moved to a contracting role purely as a Software Engineer. Worked with Senior Software Engineer Jonathan Staab, and programmed a number of features for the software, working both in the large scale Python Werkzeug API and the React/Redux front-end.

Chick-Fil-A, Daphne AL — *Team Member*

OCT 2015 - AUG 2017

Dealt with every aspect of the business: drive-thru, font-of-house, and even worked as line cook in the back during my time there. I love Chickfila.

EDUCATION

New Saint Andrews College, Moscow ID — *B.A.*

AUG 2017 - MAY 2021

Mises University, Auburn AL — *Certificate*

JUL 2020

A week intensive course that counted towards my NSA degree. Dove deep into Austrian economics with lectures, discussions, and even exams.

PROJECTS

Life Beyond College @ NSA — *Board Member*

Organized speakers for our workshops, worked with other board members to create opportunities for students to think about their future vocation.
